43359000

A black and white photograph of a latent fingerprint. The print is oriented vertically and shows a clear pattern of ridges and valleys. The ridges are dark and well-defined against a lighter background. The pattern appears to be a mix of straight and slightly curved lines, typical of a fingerprint. The overall shape is somewhat oval, with the ridges becoming more densely packed towards the top. The background is a light, textured surface, possibly paper or a card.
